

Pressure Pump

Hydrojet HJ100

Domestic water pump

Application

Budget model suitable for medium sized two level homes and home rainwater irrigation systems

Design Features

- Fully automatic
- In-built run dry protection
- Suitable for mains and low pressure systems
- Two year parts and labour warranty
- Very low maintenance
- Suitable for use with above or below ground water tanks, wells bores and spear points
- Provides constant pressure at constant flow

Technical Data

Construction Case/Impellr	S/Steel S/Steel	Power Supply	230v/1ph/10amps
Operation	Presscontrol	Inlet (mm)	25
Pump Type	Jet	Outlet (mm)	25
Pressure Tank Options	8 L optional	Maximum Head (m)	44
Motor (kW)	0.75	Max Flow	65 LPM
Full Load Current (amps)	4.5	Weight (kg)	11.5
Dimensions (mm)	Length 390 x Width 230 x Height 500		

Pump Performance

NOTE: The above Performance graph is measured at pump outlet and based on factory test conditions. Actual performance onsite may differ due to piping and fixture sizing and layout
